The Traitor in Indiana-Jir. Hannegan-Stay Law in Kentucky-A Bowie-Knife Atreet Fight in Louisville-Destructive

Fire in Alton, Hil. Correspondence of The Tribune.

BALTIMORE, Thursday, Feb. 2, 91 o'clock, A. M. I see a rumor noticed in seme of the Eastern papers, that Kelso, the traitor whose vote defeated the Whigs in the choice of United States Senator in Indiana, had, after consummating his treason, fled from Indianapolis. This is a mistake .-At the last accounts, he was still on the ground, determined to 'brave it out,' with all the assurance he could bring to his aid. He has even the audacity to boast that he had a secret understanding with one of the Loco-Foco Senators, who was pledged to vote for the reelection of Smith, never to vote for him whilst said Loco-Foco Senator did.

I see it given out in some of the Tyler papers that Hannegan, the recently elected Senator, is of that party. An entire mistake. A more devoted and obsequious supporter of Van Buren is not to be found than Mr. H., and his contempt for every Tylerite is even greater than that of Mr. Benton.

The relief or valuation law which was rejected in the House of Delegates of Kentucky on the 25th ult.-by a tie vote, 47 to 47-was reconsidered on the 26th, and having been amended so as to strike out three-fourths and inserting two-thirds as the price which property sold under execution must bring, of its valuation, was passed-ayes 48, nays 46. Its fate in the Senate is regarded as very doubtful.

On the 27th ult. at Louisville, a street fight took place between two young men, named J. E. Smith and - Frierson, both of Tennessee. Smith, armed with a Bowie knife and pistol, insulted Frierson, and pistols were discharged and Bowie knives drawn, and both were wounded, but not seriously. It evidences great dereliction of duty on the part of the Police of Louisville, that neither of these disturbers of the public peace was arrested, but allowed to leave the City undisturbed.

There was a very serious and destructive fire at Alton, Illinois, on the 22d ult. The fire broke out about three o'clock in the morning in the upper end of the town, near the river, and spread to the contiguous buildings. Six buildings were totally destrayed. The following is a list of the supposed losses, viz: Thompson's lard-house \$1,000, beside 2003 kegs lard; Nelson's stove store and tinnery, about \$3,000; Leonard's liquor store \$2000; Heart & Berry, druggists, goods saved in a damaged state, with the exception of about \$500 lost; Clifford's grocery, goods saved damaged; Beebe of New-York, goods stored, saved in a damaged condition; Walter's livery stable destroyed. The informant was unable to give the value of the other three houses, neither was it stated in the account I have seen, how the fire originated, nor what amount, if any, was insured.

ture of Monterey-Lieut. Wilkes's Report on Oregon, &c. &c. Correspondence of The Tribune WASHINGTON, Feb. 1, 1813.

Indomnity for French Spolintions-Cap-

In SENATE, to-day, Mr. MERRICK introduced a joint resolution to provide for the adjustment with foreign nations by treaty of rates of duties on imports and exports on principles of just reciprocity. The bill to prevent the employment of private

expresses on regular mail routes, &c. was discussed during the morning hour by Messrs. HENDERSON, MERRICE, PORTER and WOODBRIDGE, and after some slight amendments, was laid over.

The Oregon Bill was again taken up. Mr. RIVES favored the general features of the

bill, and urged the necessity of the adoption of measures, consistent with our relations to Great Britain, for the immediate occupation and settlement of that territory. Considering the prevision for grants of land to settlers, however, a violation of the Convention of 1818 and '28, he advocated the recommittal of the bill to the Committee on Foreign Relations for amendment. After some conversation by Messrs. Linn, Bu-

CHANAN, ARCHER, CALHOUN, BENTON, and others, as to the propriety of re-committal to the Select Committee on the subject, in preference to another, without taking the question the Senate went into Executive Session. In the House, Hon. Mr. CRAWFORD, (Whig)

Representative elect from Ga. vice Hon. R. W. HADERSHAM, deceased, appeared, was qualified, and took his seat.

Mr. G. Davis of Ky. on leave offered a resolution, which was adopted, directing the Secretary of the Treasury to report the number, standing and compensation of all officers and other persons in the employ of Government, at Portland, Boston, Salem, Newburyport, New-London, Baltimore, Charleston and New-Orleans on the 1st January of 1843 and 1829 respectively, the gross amount of revenue collected at those ports for the three years preceding respectively, &c.

Mr. LITTLEFIELD presented resolutions of the Legislature of Maine for the refunding of Gen.

Jackson's fine. Mr. Thompson of Me. moved to reconsider the vote by which the Army Appropriation bill was passed and briefly advocated the motion in order to the reduction of the amount of appropriation by excluding all items not absolutely necessary for the present service. He thought in this way a saving might be effected of a million of dollars and that it was imperatively demanded by the depressed state of the treasury, our commerce having been nearly destroyed by the increase of duties under the present tariff, which from the present prospect

would not raise \$10,000,000 per year. Mr. GRANGER expressed surprise at the gentleman's so suddenly turning round and charging on the entire body of the House extravagance in the passage of the bill, against which he had not even yesterday taken the pains to call the Yeas and Nays to record his vote. He thought the expenditures of Government might be reduced to \$22,000,000 per annum, and that the existing Tariff, if allowed to remain on its present basis, would produce that amount; but he was willing to vote to-merrow (as he had voted when the subject was under consideration, and as Mr. Thompson and other Free Trade gentlemen had not done,) to impose a duty on tea and coffee which would yield four millions in addition to the Tressury, &c.

Mr. Cooper of Pa. moved to lay the motion to

Mr. SNYDER of Pa. asked leave, and it being refused, moved a suspension of the rules for the introduction of a resolution instructing the Committee on the Judiciary to inquire whether Judge Betts of New-York refused to entertain a complaint of murder alleged to have been committed on the high seas, on the ground that he had other busi-

cate first stating that the Government considered ness of a civil nature to occupy his time: Negatived, without a division.

Mr. WINTHROP presented a petition of 2,107 citizens of Bosten for the passage of the President's Exchequer scheme, with proper modifications.

Mr. PENDLETON, from the Committee on Military affairs, reported a resolution to rescind the resolution heretofore adopted, calling on the Secretary of the Navy for a copy of Lieut. Wilkes's Report on the Oregon Territory. He explained that there was certain information contained therein which it was inexpedient to be made public at present. The resolution was adopted.

A bill was reported from the Naval Committee to authorize the purchase of lands adjoining the Navy Yard at Brooklyn.

Mr. Cushing, from the Committee on Foreign Affairs, reported a resolution to terminate debate. and bring a vote in Committee of the Whole on the Union, on the bill making indemnity for French Spoliations prior to 1800, on Tuesday next at two

After considerable confusion on points of order, Messrs, HOPKINS and CAVE JOHNSON moved to lay the resolution on the table ; rejected : Yeas 92, Navs 102.

The previous question, moved by Mr. Cushise, was seconded, and the House refusing to order the main question, (Yeay 90, Nays 95) the resolution

Mr. ADAMS, from the same Committee, reported a resolution calling on the Secretary of War for information relative to the taking possession of Monterery by Com. Jones.

Mr. GRANGER moved the previous question and leclined compliance with the request of Mr. Wise. (who wished to make a statement on this subject, which he had received from Com. Jones,) to withdraw it. Mr. G., however, effered to waive the demand to allow the reading of the document from Congress, but Mr. W. refused its reading without an opportunity was afforded him for remarks also. The previous question was seconded-93 to 79 -and, the morning hour expiring, the subject was

The remainder of the day was consumed in the consideration of the special order-Territorial business, and several bills of no general interest were passed in Committee of the Whole.

A confidential message was received from th President, and referred to the Committee on In-ARGUS. dian Affairs.

In relation to the forgery case of yesterday, the arrest was made by Mr. Lynch in person, not by the Bank, and therefore if any improper violence was used the blame must not attach to the Bank. We were in error in stating that the relatives of the young man were not permitted to see him. He had every facility and kindness, while is the Bank, extended to him, consistent with the ends of justice. The young man's statement in relation to the disposition of the check is, that on his return from the Bank he found the man from whom he had received it waiting for the uncurrent money, which he (the broker) had declined paying until he had drawn the check. He handed the check to the man, stating the circumstances, and requested in to get another in exchange, since which he did not see him.

CIRCUIT COURT .- Before Judge Kent. Wallace et al., vs. Bond & Morss.-Action of Trover (alluded to on Tuesday,) in a case where Mors's obtained redit on the recommendation of Bond, and subsequently set up a plea of infancy in bar to payment. Verdict in favor of the defendant Bond, but against the defendant Morse Charles Burrill vs. Thomas Frazier.-Action on two

poles, amounting to about \$1500, which had been endorsed by desendant in 1836, for the accommodation of L & H. W. Howeil, and cashed by plaintiff. There were several points of defence-among them usury, offset, &c.: The principal one, however, was, that the bon i for which the notes were collateral had been extended, in 1837, without the knowledge of Mr. Frazier. The father of Messrs. H. was the agent in the negociation: he took passage in the steam-ship riesident in 1841, and was lost. Sufficient was shown, how ever, to make out the points urged. Verdict was rendered for the defendant,

Jacob Kiefer vs. Benjamin Blonk .- This case was con tinued. Several watchines testified to a noise existing in the basement where the plaintiff lived at the time of the arrest : also, to a mob collecting on the side walk, &c, and that the Captain of the Watch was justified in the measures he took. The trial will be concluded this forenoun. MARINE COURT .- Before Judge Hammond.

John Salmon vs. Charles Whitson .- The defendant keeps a stable in Hester-street, near the Bowery. The action is to recover \$100 for a horse, wagon and harness left with him on livery, on the 12th of December last. It appears that a man named Howell, of Surewsbury, made affidavit at the Police Office that the property had been stolen from nim, and the horse and wagon were given up to him and an officer that accompanied him to the stable. The defendant offered to read the affidavit in justification, but objection

was made by plaintiff that it was a perjury. The Court decided that the amdavit could not be admitted, but that the person making it must be produced. The case (on the defendant agreeing to pay all the costs that have accrued,) was postponed for a week so that effort may be made for procuring the attendance of Howell. Should the detendant all in doing this, (judging from the remarks of the Court,) he will doubtless be held for the amount. Police Office.-Larcenies.-James Jamieson was arrested and committed for stealing a decanter of

liquor from the shop of John Barrett, 22 James-street. Robert Williams, colored man, was arrested and committed for stealing a handkerchief worth \$1 from Mary Ann Lee, SS Orange-street CORONER'S OFFICE .- DEATH FROM LAUDANUM

The Jury, under the advice of physicians, rendered a verdict that deceased came to her death from the combined effects of laudanum nad alcohol, auministered by herselt.

DEATH FROM ACCIDENTAL BURNING .- About 7 o'clock last evening as a little girl named Rosanna Toy, about eight years of age, residing with her parents at No. 44 Hester-st. was attempting to ge, some food from a pot over the fire her clothes caught are asd were nearly burnt of her before she could be relieved, as her mother was lying drunk on a bed in the same room at the time. SANDS'S SARSAPARILLA-SCROFULL-Other diseases have slain their thousands, but Scrofula has slain her tens of thou-sands. This very alarming affection appears under a great variety of forms, from the slightest deviations from health to the most fatal of local and general disease. One of its mest common forms is tubercular Phibsic Pulmunalis or consamption of the langs; diseases of the hip and knee joint and white swelling—also the glands of the neck and other parts of the body. Experience has shown that Sands's Sariso the glands of the neck and other saparilla is a cure for this most inveterate complaint, and in saparina is a cure for this most inveterate comparint, and in numerous instances it has brought returning health and life where the vital spark had a most fied. From its preparation and peculiar combination with other vegetable substances, it operates by removing in the first place unhealthy action from the distance. action from the diseased organs, substituting bealthy action in its place, and giving tone to the general energies of the

system.

METALLIC RAZOR STROP - With four sides, invented by METALLIC RAZOR STROP—with four sides, invented by G. SAUNDERS, for keeping R. 2078 always in order. It produces a smooth and thin edge to a razor in a teath part of the time required on a hone, without using oil or water.—No other article of the kind has ever been so universally known and approved ot, having for the last twenty-five years been in constant use in nearly all the cutiery establishments of Europe, and there acknowledged to have no equal. In New York, where it was invented, it received the first premiums at the Fairs of the American Institute every time it was exhibited for competition, and gradually (with time it was exhibited for competition, and gradually on the aid of puffing) established a reputation in all parts of America of being the only Razor. Strop that will keep razors in perfect order. Certificates are in the possession of the inventor from the most scientific gentlemen of both countries, speaking highly of their superiority; which take ing in consideration that those gentlemen have no interest in the sale of the article, and gave their testimony without solicitation, speaks volumes in its favor. It is the only Strop that has been deemed worthy of imitation and counterfeiting. The great number of these aione would stamp it as eing the climax of perfection.

That it may be more saturactory to the public, the names of those gentlemen who have given certificates as to the merits of the Strop are here published: Gen James Tallmadge, President of the American Institute; Professor m. Dr. Valentine Mott, and Mr. Millikin, cutlet
